My student Turnitin a/c shows match overview as 10% and similarity % as 12, I don't have access to Turnitin AI Report.

Mam, I wanted to kindly bring one clarification to your notice.

The initial AI report included matches from my own earlier Turnitin check conducted by my university library before submission. This might have caused certain elements such as the full-abstract, author details to appear as AI highlighted.

If possible, I request that during the next turnitin run,

1. Student repository/self-matches,
2. Bibliography/reference list,
3. Tables/Figures in appendix

Be excluded, as these generate false positives.

Thank you very much for your understanding and guidance.

Warm regards

Prof. Arun Kumar, 9820460348

Dear Arun Sir,

Greetings from WeSchool, Mumbai.

Thank you for submitting your full research paper for the aWEshkar journal, March 2026 issue.

To proceed with further double-blind peer review, the manuscript must comply with the following thresholds:

- Plagiarism from published sources must be **less than 10%.**

- Plagiarism from generative AI must be **less than 20%.**

The plagiarism report and AI report are attached for your reference. You are required to revise the manuscript to address these concerns and ensure compliance. The revised manuscript must be submitted no later than **22nd November 2025** for further consideration.

For any clarifications, feel free to contact us. We look forward to receiving the updated manuscript.

Note: Please note that there are no article processing charges (APC) associated with this publication.

Regards,

Dr. Ragini Jadhav
